## SUMMARY:

RIT Graduate with background in programming seeking positions related to either programming or information technology. Familiar with coding, and roles requiring frequent collaboration and communication.

## EDUCATION:

Rochester Institute of Technology (RIT), Rochester NY – Bachelor of Science, Game Design and Development, Golisano College of Computing and Information Sciences; GPA 3.82

## RELEVANT COURSEWORK:

- *Game Design and Algebra Problem Solving 1 and 2 (C#)*
- *Introduction to Interactive Media (HTML/CSS)*
- *Introduction to Game Web Tech (HTML/CSS, JavaScript)*
- *Game Design and Development 1 and 2 (C# and Unity)*
- *Data Structures and Algorithms for Games and Simulations 1 and 2 (C++)*
- *Level Design, Rich Media Web App Design 1, Foundations of Interactive Narrative*

## SKILLS:

**Programming Languages:** C#, C++, Java, HTML/CSS, JavaScript

**Tools/Software:** Visual Studio, Unity, Unreal, GitHub, Perforce, MonoGame, Twine

## WORK EXPERIENCE:

### **RIT Games and Interactive Media: Game Developer (May 2024-August 2024)**

- Worked on Changeling VR, a virtual reality narrative game. Collaborated in a team in this role as a Programmer and Level Designer. Involved constant communications and collaboration, testing, and problem solving within the development period. (Rochester, NY/Remote).

### **iD Tech: Online Instructor (May 2022 – January 2023, May 2023 – August 2023)**

- Instructed courses as an Online Instructor in programming and game design that included courses in C#, Unity, Java, and other software; Included working as support for other instructors, and troubleshooting certain technical issues for students. (Campbell, CA/Remote).

### **International Ivy Virtual Camp: Online Instructor (June 2020 – August 2020, June 2021 – August 2021)**

- Instructed various courses for the camp as an Online Instructor, including Video Game Creation, and Java programming; Included troubleshooting technical issues for students. (Summit, NJ/Remote).

## PROJECTS:

### **Pirate Dragon Clash (Personal Project, October 2025)**

- Created a 2D tower defense game using Unity, and C# Scripts; Programmed all game mechanics including towers, enemies, and various management systems.

### **Tower Climb (Academic Project, December 2020)**

- Created a 2D tile-based web page puzzle game using HTML, CSS, JavaScript, and Browser DOM; Programmed all functionality of the game/webpage and created sprites and sounds (With GIMP and Bfxr).

## HONORS/CERTIFICATIONS:

- RIT Dean's List – Received for all terms between Fall 2019 and Spring 2023.
- Coursera Certifications: "C# for .NET Developers" (March 2025), "Backend Development Using ASP.NET" (April 2025), "Microservices and Deployment using ASP.Net" (April 2025).
